

Aleksandr Solzhenitsyn - SOLZHENITSYN IMPRISONED IN THE SOVIET GULAG SYSTEM. AMERIKA, THEY ALWAYS SHOOT THE USEFUL IDIOTS LAST!! YURI BEZMENOV, KGB.

Modern society is hypnotized by Socialism. It is prevented by Socialism from seeing the mortal danger it is in. And one of the greatest dangers of all is that you have lost all sense of danger, you cannot even see where it's coming from as it moves swiftly towards you. Dwell on the past and you will lose an eye; forget the past and you lose both eyes. Aleksandr Solzhenitsyn, Gulag Archipelago.

Socialism & VA Suck a bag of wet Camel dicks.

I got my first up close awakening about Socialism about 12 years ago while working for a major aerospace firm. We had a very big aircraft contract that involved 6 companies to produce it; it was a co-produced contract. One of the companies was BAE or British Aerospace located in England. The whole depended upon each company to do its part. BAE never met its contractual obligations, which jeopardized the whole program. The company I worked for sent some of our best engineers to help out BAE. After a month all returned and said 'impossible.' England is Socialist and nobody has any incentive to work. Why when the state taxed over 90% of their earnings away. Then myriad sundry VAT and other taxes ate away the rest. No one has any incentive so mostly they stay drunk. At BAE the workers would hit the pub first thing each morning before coming to work. At coffee breaks they all left work to the pubs that surrounded the complex for a pint or two, then after work back to the pub where some of them stayed all night then came to work already well sauced up. Socialism destroys industry and that was proof positive. Most industry and wealth has relocated out of England. More millionaires exist in Dallas, county Texas than in the whole country of England. Socialism is the cause. To save the contract, the company made a deal with England to give engineers tax breaks and such to come into USA and work. Otherwise the state would lose several billion dollars when the program failed. They had to abide by our laws...no drinking before or on the job, be productive and in other words do as American workers mostly do. English employees had incentive to work because they kept most of their income free of socialist taxation. The plan worked and saved the program. People there are year round dole or welfare kings and queens. In summer their vocation is shoveling snow; in winter it is cutting grass. No work meant state payments. That guaranteed year round income from the state for doing nothing except sitting in a pub all day getting wasted. Most have very low self-esteem, low self-pride, and self-image as non-productive citizens. They get what they get from socialist government such as it is: healthcare, housing and so forth in sacrificing almost all of their income to the state. State provided housing is low class. Healthcare pretty much the same; get out of line and while each citizen continues to pay taxes; benefits are withheld by the state as punishment. If one has the means to use private healthcare, which is very expensive, if the NHS or national healthcare system

found out it did not provide benefits at all as punishment for protesting against socialist incompetence. One still paid taxes but got nothing in return, which is socialism in toto. Socialism is all promise and no delivery except for two things: it fails everywhere and time it is tried; it taxes and destroys a nation's economy and the people in return. England it a country of shop keepers, consumers, debtors that cannot pay its debts. America is no different; it has broken more promises to the American Indian and military veterans that the country ever made. When I briefly used VA that agency treated me as if I was the thief though I've paid income taxes to this state over 55 years that support parasites like that agency, and will do so until death frees me from this shit hole; death is the only freedom to a slave. The perfect slave is one who says, "I am not a slave." Socialism is slavery in toto. VA is the worst medical and benefits system in America. 100 US veterans suicide daily escaping that hell care and because of VA mistreatment, abandonment, abuse and torture. Of course the American Indians will tell you the same story only much worse about US betrayal. BIA and VA both are Socialist, govt run systems and failures except for keeping useless bureaucrats in pampered, cushy jobs. WW2 did not defeat the Nazis, which stands for National Socialism. The cult came to America and opened companies like BIA and VA to continue its evil deeds. Socialism destroys capitalistic industry and people proper. Parasitic socialism is a parasite that feeds off capitalistic hosts. Parasites always sicken and kill their hosts then move on to fresh blood. Socialism fails 100% of the time; it is long on lies and absent on delivery of its promises. Whether black or white markets, such as the black market US drug war or white retail markets socialism feeds off them to survive. Socialism produces only misery, and when hosts all die the parasites begin eating each other, which leaves out those parasites who depend upon the state via learned helplessness. Seems fools cannot resist 'the something for nothing and tax the rich' bait and switch lure socialism. A free ride and lunch that someone else always pays for until it is you getting the bill for nothing in return. Two classes of rich exist: the privileged rich that pay nothing and the paying 'rich' that is us by the way who pay it all. All the wonderful things in USA came from capitalism. Socialism only consumes and destroys giving nothing in return except misery, poverty and much worse. Socialism is not anyone's friend except PTB lootership running the ponzi swindle and their pampered bureaucratic armies of campo's, capos, and trustees that control the rest of us imprisoned, slaves & hosts. Nothing is free in this world. We all pay a price and socialism it no exception. American's are stupid suckers when offered 'free,' or 'tax the rich' among the many cons that politicians pander to rob you of life, liberty and more at gunpoint and violence of law. Out of laziness US sheeple prefer to blindly follow the pied pipers than do a little homework learning truth. Willful deaf, dumb, and numb sheeple living in bread, wine, and circus tents built to enslave them until fleecing, killing and slaughter time.
